I would like to thank my entire webmaster team for such a fine job and sticking with this project as many has been with us for many years now.

If your club is not on this list WHY NOT! We have gained a few club websites this year and this makes all our jobs easier.

Again I would like to encourage all Clubs to have a club web page there is no fee charged to clubs to have their information on our site.

At the very least all that would be requires to keep a club page is for someone from the club having access to E-mail do up a letter consisting of all their pertinent club information on Note Pad this is a program everyone has and would do for a text format. Another option could be just type or pasted the information into an e-mail and send it to me on a regular interval or as things change. This page could then be converted to HTML and posted on the web replacing the last page. All that is important is that it has the correct & up-to-date information. Also when their posters are done up on some computer this information could be e-mailed to their Region webmaster. This would make the information more correct and save the time of retyping all this information again. It is Critical that the New Dancer Class information be posted as early as possible the year before is not too soon. Even if you're thinking about it that would be a good indication for the public.

We have Dancing Keeps you Young converted for the website by some one in Calgary Alberta.

This year we again have four advertisers. This brought us in \$400.00. This has worked well for this year and they are willing to go another year with us.

This extra money goes into general revenue for the federation.

This winter I will be going to Arizona for January February & March,
As the main Webmaster with a little help from a few of the webmasters etc. already working with me on the website I feel that I will be able to continue to maintain this federation website as the same level I have in the past without any difficulty.

Thank you.

.
