

Moving and Grooving Report

We continue to process orders as they come in and send the funds to the Federation Treasurer. Because we have been busy on other projects, we have not been actively promoting Moving and Grooving this term and so sales have been slow. Our best customers continue to be schools and school boards. The number of Moving and Grooving copies that have been sent out to date is 273.

When the last 200 copies were printed, we were required to purchase the licenses for 500. We therefore have the licensing for 300 additional copies. Because prices of the materials were rising rapidly, we decided to go ahead and obtain the materials needed to put the next 300 copies together when they were needed. So, we have purchased 300 binders (on sale) and we have made a deposit to Conference Audio for the duplicating of the CDs for the 3rd Run of 300. At this time, the CDs have not yet been duplicated.

Just a reminder: Moving and Grooving is a self-funding project. All money received from sales go back into producing further copies.

Respectfully submitted,

Mary Anne and Nick Turner
