BOD Meeting
Report on Participaction and Act Now BC

Report by John Corrigan

We will be sending out an e-mail to all clubs and associations soliciting video's to send to Participaction for the new commercials they are putting together. We will be looking particularly for videos from teen Festival or ones which have a mixed age group. Both groups have been asked to put a link to our website and our 800 number on their website and any future brochures they may do.

Executive Expense limits:

I have asked several people to look at the current limits and come up with some proposals which I will put out prior to the AGM for the executive to discuss and have a proposal ready to be voted on at the AGM.
