Sometimes we get phone calls or emails from people asking about the quality and/or type of the music used on the Moving and Grooving CDs. To help with this issue, I sent some sound samples to the Federation webmaster, Phil Douziech, and he put them on the website so customers can now listen to a bit of the program before they buy.

Some dancers and leaders have helped us to spread the word about Moving and Grooving so if any of you would like to help pass the information along, just contact us and we will be happy to send you some flyers.

Also, the information, order forms and now sound clips are available on the Federation web site at
