

BCSRDFederation 2nd Vice Report.

I am finally able to report that there is some progress in having the federation web site redone. It is desirable for the web site to have easy navigation, appealing layout with a site map with all pages listed and other properties Hopefully, we will be able to resolve any hurdles without too much frustration and disappointment and have this site on stream by the AGM in August.

I thank Jean Wood Fed President, Pat Zeeman Fed Treasurer and Frank McNeil Fed Web Master for their assistance in giving me so much information regarding financial, site content and terminology regarding a web site make up.

Many thanks to Brian Elmer for his constant commitment to Square up BC. Brian's skill in Marketing, Publicity and passing along information as well as getting inquiries to the right parties regardless of the time of day is well beyond what we can ask. I have seen many messages with a posted time after midnight and before six am.

There is a general belief that the majority of dancers are not interested in anything but dancing. What clubs want from the Federation are workable ideas to bring in, and keep, new dancers and poster and advertising ideas and ways to get the public joining in at demos.

Bill Morey.

2nd Vice BCSRDF
