

## Past President Report

For Board of Directors Meeting – March 28, 2020

I would like to thank Norm Cox for acting on my behalf in the first half of 2019 when it became necessary for me to step back due to treatment of a health issue. The co-operation and understanding of the Federation Executive is also very much appreciated.

My health appears to have stabilized since my treatment and I have been able to resume some of the Past President duties. I attended and participated in the Annual General Meeting in Salmon Arm in 2019. I was able to attend some special club anniversaries such as the Ocean Waves in Courtenay last year and earlier this year the Chilliwack Rhythm Reeler's 65<sup>th</sup> where I made a presentation on behalf of the Federation President and her Executive. I have taken on a role in the revised Sillery Award committee and will be assisting in the processing of nominations for the year 2020.

I have not had any success so far in locating a Secretary for the Federation and this position remains vacant. Please advise me if you wish to nominate someone or volunteer yourself. It is a very important job on the Executive and a good Secretary will go a long way to ensure that the Federation is efficient and using your dues in a meaningful manner. The Secretary provides an important communication link between the membership and the Executive of the Federation.

Ken Crisp, Past President.
