

BCSRDFederation 2nd Vice Report.

I am able to report that the federation web site is redone and available to all federation members. It will still be a work in progress for a while. There are many adjustments to be made as we move along. It is desirable for the web site to have easy navigation, appealing layout with a site map and other properties. Hopefully, we will be able to resolve any hurdles without too much frustration and disappointment.

I thank our web master Frank McNeil for his patience with me during this change over from the previous site to the new one. He has spent many hours continually going over and over additions, alterations, deletions, questions etc. put forward by me.

All complaints or recommendations regarding the website need to be brought to my attention and not addressed to the webmaster, Frank has enough on his plate right now. My contact info is wh_morey@telus.net

As I stated in my last report many thanks to Brian Elmer for his constant commitment to Square up BC. Brian's skill in Marketing, Publicity and passing along information as well as getting inquiries to the right parties regardless of the time of day is well beyond what we can ask. I have seen many messages with a posted time after midnight and before six am.

DVD Library.

During my several years as 2nd VP I have not received any requests for the use of this material and neither did Gord Ruedig before me. To the best of my knowledge all this material can be accessed through google. If the Federation had a person for historical articles and items etc. this dvd library could be stored there.

Bill Morey.

2nd Vice BCSRDF
