

Webmaster's report to the Oct 17, 2020 AGM

We have our newly redesigned web site on a new service provider located in B.C. They created a new design using WordPress for our web site and transferred most of the information. I finished entering Callers and Cuers on the Caller/Cuer info page and several links needed to be fixed.

I have been learning to work with WordPress, navigating the different aspects of the Page design and tools for editing, the task of keeping the site up to date is on-going process and I appreciate the help I have received so far. I ask each member to have a look at the site and let me know what information could be updated or corrected, especially regarding Callers & Cuers that are inactive/retired.

Any suggestion on content for the site can be forwarded to Bill Morey, who is overseeing the Website revitalization.

Regards,  
Frank McNeil  
Webmaster
