

Webmaster report

AGM. April 25, 1021

I have been making changes as requested. Some take longer to accomplish due to a lot of entries being done in raw html. There were a few entries for links to documents that had not been linked, so that took some time to locate those documents and link them to the etries.

Already there is talk of redesigning the site again. I will wait for the result of that discussion.

Regards,  
Frank McNeil
