

# Upper Vancouver Island Caller Teacher Association

## 2022 AGM Report

Square dancing in our region has been suspended since March 2020. Some round dancing has been taking place as dictated by ever evolving health orders over the past two years. Two clubs have folded to date; six are either on hold or limping along.

Our region, as we consider a return to dancing, is suffering from an overwhelming shortage of callers and cuers. A number of the executive of our association are either retiring or moving away from the region as well and it is questionable whether our association will survive beyond our AGM which is scheduled for May 15 of this year.

At this time just one club has restarted its square dance program in a limited fashion; the others are taking a “wait and see” approach as the effects of the latest relaxation of health guidelines are measured.

Respectfully yours,

Gordon Ruedig, U.V.C.T.A.
